C40H-small

Rehandling Clamshell Bucket

The new rehandling clamshell bucket C40H small from **KINSHOFER** is eine variation of the already proven C40H. The small version has a smaller volume at the same width though, whereby the C40H-small can be mounted onto smaller rehandling excavators. Still the entire width of the grab can be used to unload a ship faster diagonally. Thus you can spare up to one complete unloading cycle and thereby save time.

The clamshell bucket is equipped with the robust **KINSHOFER** 15t rotator fixed at four points.

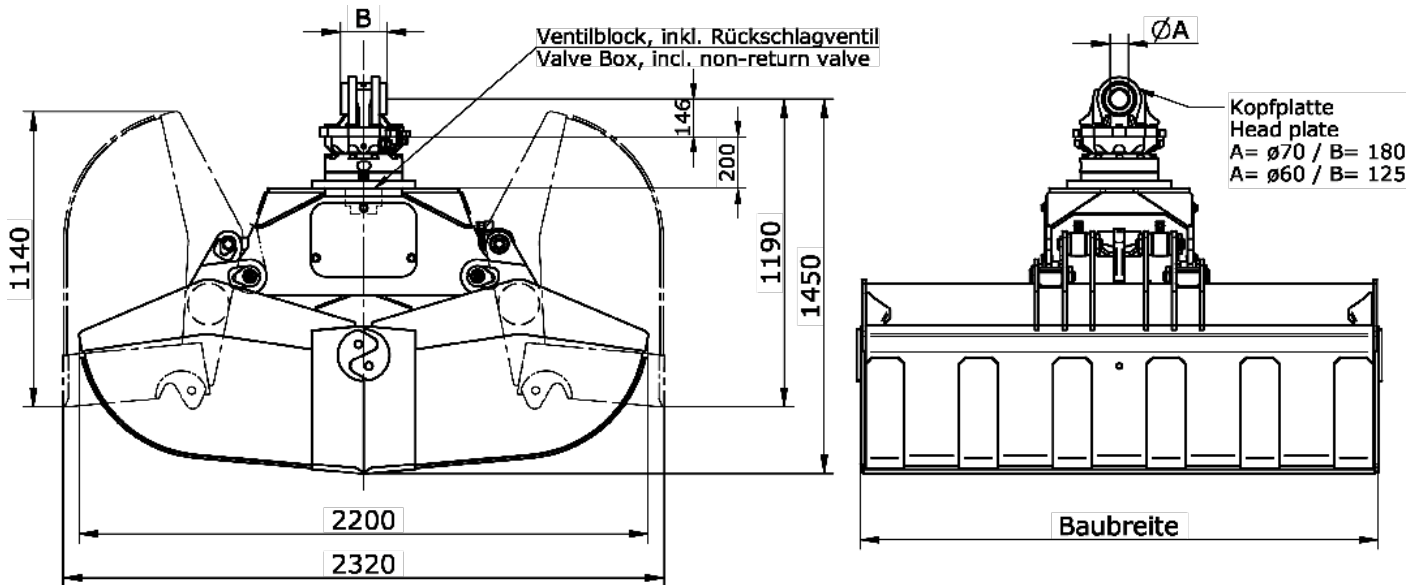

TECHNICAL DATA:

Operating pressure: grab: 320 bar / rotate: 150 bar
Pump capacity: grab: 75-150 l/min / rotate: max. 60 l/min
Load capacity: 7000 kg
Closing force: 63 kN

Width:	Volume:	Weight:
2000 mm	2000 l	1650 kg
1750 mm	1750 l	1480 kg
1500 mm	1500 l	1300 kg
1250 mm	1250 l	1220 kg
1000 mm	1000 l	950 kg
