

The CBK cable buckets are used for digging out cable ducts and are very robust with a low weight thanks to the use of HB 400 steel. These properties make the bucket an efficient and profitable tool.

Depending on the type, the bucket is suitable for excavators with an operating weight of up to 12t / 26,400 lbs.

- ▷ **Robust:** also suitable for hard grounds.
- ▷ **Easy mounting** to the carrier.
- ▷ **Different adapters** available.
- ▷ **No protruding parts.**
