The Kinshofer TC Tilt Couplers provide a tilting angle of up to 180°, increasing the flexibility and efficiency of all attachments to a maximum. Compatible with quick coupling system L-Lock. The hydraulic versions are equipped with drop stop claws for additional safety.

- ▷ Compact design, no cylinder.
- **▷** More flexibility.
- ▶ Low height thus high breakaway force.
- **▶** Low maintenance.
- All hydraulic quick couplers system L-Lock are equipped with drop stop claws as standard! The Kinshofer quick coupler systems thus fully comply with all applicable national and international standards and regulations, including Machinery Directive 2006/42/EG, DIN EN 474-1, ISO13031 and SUVA.
- ▶ Optionally available: a double unlockable non-return valve mounted to the motor provides a safe position of the TC tilt coupler across all angles, see accessories page 9.

TC10-180 KHS08L here with hook and closed claws

Hye

The TC L-Lock+ tilt couplers are characterized by a very high safety standard. The drop stop (extended quick coupler claw) prevents the attachment from falling down if the quick coupler lock is accidentally not closed properly, despite visual indication or warning signal. The newly developed indicator pin shows on the one hand the locking status when the bolts are in/out and on the other hand also when the locking bolts are above the approved range.

- ▶ Drop Stop: The quick coupler claw curls around the front pin of the quick change adaptor and prevents the attachment from unintenional disengagment.
- ▶ **Enormous safety:** Indicator pin shows only one correct condition of the coupling process and is independent of sensors or electronics.
- Fully comply with all applicable national and international standards and regulations, including Machinery Directive 2006/42/EG, DIN EN 474-1, ISO13031 and SUVA.
- Optionally available: a double unlockable non-return valve mounted to the motor provides a safe position of the TC tilt coupler across all angles, see accessories page 9.

Quick coupler

one single acting hydraulic circuit up to TC045 one double acting hydraulic circuit from TC07

Rotary drive

one double acting hydraulic circuit

Note:

Hydraulic system:

excavator needs to be equipped with quick coupler control

#### Tilt Couplers System L-Lock 8.6-23t / 18,920-50,600lbs

TC L-Lock

The Kinshofer TC Tilt Couplers provide a tilting angle of up to 140°, increasing the flexibiliy and efficiency of all attachments to a maximum. Compatible with quick coupling system L-Lock. The hydraulic versions are equipped with drop stop claws for additional safety.

- ➢ All hydraulic quick couplers system L-Lock are equipped with drop stop claws as standard! The Kinshofer quick coupler systems thus fully comply with all applicable national and international standards and regulations, including Machinery Directive 2006/42/EG, DIN EN 474-1, ISO13031 and SUVA.
- ▶ Counter-balance valve mounted to the motor retains a secure position for the tilt coupler across the angle.
- ▷ Compact design, no cylinder.
- **▶** More flexibility.
- ▶ Low height thus high breakaway force.
- > Low maintenance.
- > Non-return valve set is optionally available.
